

Salt Lick

Weather Resistant Salt Block Suitable For All Horses

ELECTROLYTES

SALT LICK TO PROVIDE DAILY MINERAL REQUIREMENTS TO HORSES ON PASTURE

COMPOSITION:

Sodium 38.5%, Calcium 0.1%, Magnesium 0.1%

KEY INGREDIENTS per Kg:

Zinc 600mg, Copper 400mg, Iron 220mg, Manganese 200mg, Vitamin E 150mg, Iodine 50mg, Biotin 20mg, Cobalt 12mg & Selenium 2.6mg

Features

- Supplies a concentrated source of all critical minerals essential for optimal health and vitality.
- Provides trace minerals in addition to macro minerals.
- Iodised mineral source.

Benefits

- Appropriate for all classes of horses including racehorses in training, spelling horses, yearlings, weanlings, foals and stallions.
- Convenient holders available for ease of use.
- Slow to weather and highly palatable.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Place block in holder in paddocks. A ratio of one block per 5-6 horses is ideal. This will vary according to the class of horse, stage of development and exercise intensity.

INSTRUCTIONS:

Because of the high content of trace elements, the feeding of this supplement may not exceed 1.5% of the daily intake.

PACK SIZES AVAILABLE:

2kg & 10kg blocks. 2kg & 10kg holders are also available.
